# Georgiana Miclea

MES Lead Engineer la Emerson Automation Solutions  
Cluj-Napoca, Cluj, România

## Rezumat

My personal mission is derived from my belief that having a dream job is one of the best things that can happen to you. I think if you have a job that makes you happy, everything around you will benefit.

## Experiență

### Emerson Automation Solutions

8 ani 11 luni

#### MES Coordinator

septembrie 2024 - Present (1 an)

Cluj, România

The role involves supporting junior employees by providing trainings and guidance on how to use the system, ensuring they have a solid understanding of its functionality. The MES Coordinator acts as a team leader, helping resolve issues, coordinating between departments and ensuring that they can perform their duties effectively.

#### MES Lead Engineer

septembrie 2022 - Present (3 ani)

Cluj, Romania

In this role I supported the project management team with estimations, resource planning, and organized technical work leading the project team to develop the detailed design, implement and test complex MES (Syncade) solution using the custom-developed software application and configured products. I led and supported Site Acceptance Test (SAT) activities and provided on-site production support.

- Creating project management documentation (QPMP, OTP, PPR)
- Creation risk assessment documentation
- System support
- FAT and SAT support, planning, deviation handling and corrections
- Support the onsite team during the production batches

## Senior MES Engineer

noiembrie 2020 - august 2022 (1 an 10 luni)

Cluj, România

In this role I worked as an OMS Overall RA lead where I defined the business needs, and coordinated the large project team to develop the detailed design, implement and test complex MES (Syncade) solution. Using complex integration between Syncade and DeltaV systems. I supported the project management team with estimations, and resource planning, organize the technical work, and ensured applying execution methodology.

- Reviewing the technical documentation (DS, FS, TS)
- Functional Acceptance Test activities (FAT)
- Site Acceptance Test activities (SAT)
- Part of SME team (subject matter expert - recipe authoring)
- Support the onsite team during the tech batches, fixing issues on the fly

### MES Engineer

ianuarie 2018 - noiembrie 2020 (2 ani 11 luni)

Cluj County, Romania

In this role I started to work as a RA Lead being responsible for guiding and supporting a team of 7 engineers, mainly on recipe development and implementation.

I also worked on writing DS, FS and TS, participating in Internal Testing and FAT and gaining customer / operator interaction experience.

Worked effectively with clients at different levels to support defining business needs and demonstrate product capabilities.

- Recipe authoring development and implementation
- Workflow implementation and testing
- Equipment development
- Materials and inventory
- XMLs
- VBScript Functions
- Functional Specification
- Test Specification
- Design specification

### Junior MES Engineer

martie 2017 - decembrie 2017 (10 luni)

Cluj County, Romania

- Recipe authoring development and implementation
- Workflow implementation and testing

- Functional Specification
- Test Specification

#### Internship

octombrie 2016 - martie 2017 (6 luni)

Cluj County, Romania

---
